

Please let NJ keep their "Do Not Call" rules. I am finally able to spend some quality time with my daughter without a constant barrage of unwanted calls from telemarketers -- Many of whom are very nasty. Most times they hang up BEFORE I get a chance to ask them to remove me from their list. Also, one company in particular has called repeatedly in spite of my constant requests for them to stop. If this law is rescinded, I feel that I will have no resource in stopping these calls.
